Description

Our artists choose reclaimed teak wood, revered for its beauty and durability, to create this coffee table. The table celebrates the wood's beauty by incorporating its gnarls and other imperfections into the design and top it with a unique sliced slab of teak.

Teak Wood is the most durable and weather-proof of all hardwoods. It is known to be the strongest wood in the world and is native to South East Asia. The natural oils the wood produces allows it to be used outdoors year-round, where it develops a beautiful silver-grey patina.
