Description

Our Round Back Chair brings a comfortable, minimalist design aesthetic to indoor spaces and covered outdoor porch or patios. Crafted of rattan in a natural finish, the curvy silhouettes of the chair ensures relaxation in style. Constructed of plantation grown rattan, this lounge chair is strong and durable. Paired with your favorite pillow or throw, this chair will bring hours of comfort and conversation to any room or covered area.

Rattan is a close relative of the palm tree. It is a type of a vine that rapidly grows in the jungles of South East Asia. It grows in the shape of a pole, and its diameter varies between one to three inches. Rattan is one of the strongest woods with a strong core and is thus durable and hard to break.
