- Ship Via: UPS / Fed Ex
- Imported

Description

Add extraordinary warmth and texture to any space with this lush woven sea grass pouf. Crafted from finely woven sea grass, this pouf is designed for comfort and eye catching allure. Use it as an accent piece or ottoman. Seagrass meadows are found in oceans across the globe. Historically, seagrasses were collected as fertilizer for sandy soil and later dried and used for mattress fillings in the islands. Currently, seagrass is used in furniture and woven like rattan.
