- Imported

Description

Our LUNA onyx bowl is a work of natural artistry. Carved from a solid piece of translucent onyx, it boasts intricate patterns and variations in color, ranging from warm honey tones to deep amber or green hues. The stone's natural veining adds to its visual appeal. This bowl serves as both a functional vessel and a captivating decorative piece, with the ability to hold and showcase items while emitting a soft, warm glow when placed near light sources. Its unique, semi-precious stone construction makes it a luxurious addition to any interior decor.
