Description

Beautifully hand-crafted from tightly woven water hyacinth, our set of 2 beautiful oval storage baskets are practical and decorative oozing with exquisite design and workmanship. Stainless Steel handles add an unexpected new, modern and elegant detail to the traditional basket. A perfect storage option for laundry rooms, living rooms and bedrooms.

Water Hyacinth is a fast-growing aquatic plant native to South East Asia. The plant is easily renewable, flexible but strong, and often needs to be harvested to prevent it from overtaking waterways...all good reasons to use it for furniture-making. Countries that export a lot of water hyacinth furniture include Thailand, Vietnam, and Bali.

Assorted style baskets are available in various sizes and shapes.
